

Electronic Assembly Services, Inc. (EAS) manufactures custom electrical panels and assemblies to customer specifications. We are a double minority woman owned business, founded in 1997. Your products are manufactured in our Houston TX facility. Projects can be turn-key, material or labor only.

Staff has over 30 years experience with manufacture documents. All panels are built, checked and tested by our knowledgeable wire and quality techs. EAS will produce your products reliably to meet your delivery requirements.
